

Introductory workshop

Children and supervising teachers will be introduced to the basics of documentary filmmaking, including visual literacy, storytelling and technical skills.

Advanced courses

Future courses are focused on strengthening the skills learnt in the introductory workshop. Schools may elect to focus on specific skills such as camera work or editing, or alternatively choose a general advancement in all areas.

Details

Sprout supplies teaching staff, cameras, microphones and editing services as well as lesson plans and curriculum materials for continued learning.

Classes range depending on requests and are delivered in different formats including term long classes, one full day, weekend, three day workshop, week long intensive programs, after school programs and holiday workshops.
